

# Healthcare Display Install Bundle

The new commercial grade LCD display from Panasonic is truly best-in-class. This product was specifically designed for the healthcare environment and has the best value on the market with a total cost of ownership that far exceeds the competition.

DataSource Mobility has created this display bundle to give you a total solution for your project. Rest assured that the Panasonic Certified Concierge Service will handle all aspects of staging, new equipment installation, removal and even recycling of outdated equipment. The 3 year onsite warranty is industry leading and the bundle is the ultimate value for your patient room technology.
